## Notes:

Data from [basketball-reference.com](http://basketball-reference.com), with the exception of pace data, which is from [ESPN's Hollinger NBA Team Stats](http://ESPN's Hollinger NBA Team Stats). The curves in between ARE NOT to be used to extrapolate data accurately, it merely shows the *trend* between separate points, as the area under the curves divided by a unit length will not provide the FG% for the range as an average value.
