Data from [basketball-reference.com](https://www.basketball-reference.com), with the exception of pace data, which is from [ESPN's Hollinger NBA Team Stats](https://www.espn.com/sportscenter/stats/nba). The curves in between ARE NOT to be used to extrapolate data accurately, it merely shows the *trend* between separate points, as the area under the curves divided by a unit length will not provide the FG% for the range as an average value.
